PROFESSIONAL SUMMARY

I am a motivated technology professional with a strong interest in software development and system design. I have hands on experience in building full stack web applications using Python (Flask), MySQL, and modern frontend technologies including HTML, CSS, and JavaScript. My background also includes digital electronics, which gives me a solid understanding of how software integrates with hardware systems. I am passionate about solving real world problems through technology, continuously learning new tools, and delivering efficient, secure, and scalable solutions.
